Profile

I am a highly driven individual and have been working in education as a project manager for the past 6 years. I recently completed a Fullstack coding course via Georgia Tech, and I am looking to move my career in a new direction. I work well in collaborative environments, as well as taking on independent projects. I have a passion for learning new things, am quick to learn, and thrive off of constructive feedback.

Work Experience

2019 – Present. Rocketship Legacy Prep, Washington, D.C. *STEM Fluency Manager*

- Managing students' fluency and assessment data spreadsheets.
- Analyzing the data to maximize students' success by facilitating group and on-on-one tutor sessions.
- Assessing data trends from the students' online learning programs.
- Delivering analysis of data and action plans to administration.
